of New Jersey)	

This matter was opened to the New Jersey State Board of Dentistry ("Board") upon receipt of a letter from Ernest M. Caposela, Esq., on behalf of Roy McTernan, D.D.S. for modification of the provisions of the monitoring Order entered into by Dr. McTernan with the Board on February 18, 1993, as amended on May 31, 1995. The Board having received information from Frederick Rotgers, Psy.D., of the New Jersey Dental Association Chemical Dependency Program, that Dr. McTernan is complying with all terms of the monitoring program, and the Board having had the opportunity to question and discuss with Dr. McTernan his current monitoring program and requests for modifications at an informal hearing on March 20, 1996, together with his counsel, Mr. Caposela, and for good cause shown;

IT IS ON THIS 1st DAY OF May, 1996,

HEREBY ORDERED THAT:

1. The frequency of urine testing shall be reduced effective immediately to three (3) times per month on a random basis for a period of six (6) months. Assuming all urine tests are negative for controlled substances, the frequency of urine testing shall be reduced further to two (2) times per month on a random basis for an additional six (6) month period. Thereafter, Dr. McTernan may request from the Board a termination of all urine monitoring.

2. Dr. McTernan shall continue in individual therapy with Ms. Pat Whippich on a weekly basis, and Dr. McTernan shall continue attendance at five (5) AA meetings each week.

3. All other terms and conditions set forth in the Consent Order dated February 18, 1993, as amended by Order filed May 31, 1995, that are not inconsistent with the within Order shall continue in full force and effect.
